

ARYEL JEREMY M. ENDAYA

Alaminos City, Philippines | arylmendaya@gmail.com | +63 950 478 3315 | linkedin.com/in/aryel-endaya-12558a34b

PROFESSIONAL SUMMARY

Junior automation and social media professional with hands-on experience building workflow automations using GoHighLevel, Make.com, Jotform, and Zapier. Grew a foreign crypto client's social media presence and contributed to \$10,000-\$15,000 USD in campaign rewards through consistent content execution, research, and community engagement. Combines a BS in Information Technology background with front-end fundamentals (HTML, CSS, JavaScript) to bridge content, automation, and user-facing systems.

CORE SKILLS & TOOLS

AI & Automation: ChatGPT, Claude, Gemini, Zapier, Make.com, GoHighLevel

Project Management: ClickUp

Communication: Slack, Microsoft Teams, Zoom, Google Meet, Loom, Discord

Productivity Suite: Google Workspace, Microsoft 365

Design & Content: Canva, Figma, Framer

Programming Languages: HTML, CSS, JavaScript (basic interactivity), PHP (backend fundamentals)

PROFESSIONAL EXPERIENCE

Automation Intern (OJT) | Techniqal Group

February 9, 2026 - May 4, 2026

- Co-built a full customer acquisition and onboarding automation system (Framer, Typeform, Stripe, Calendly, Make.com, ActiveCampaign) as part of a 3-person team for a simulated client engagement, including a geocoding-based feature that auto-assigned customers to their nearest service location.
- Designed a 7-stage automated lead-nurture pipeline within the CRM, using trigger-based tagging and time-delayed follow-up sequences to move leads from first contact through booked appointments.
- Wrote Google Apps Script functions to clean and validate messy customer data across 10 data types (names, emails, phones, addresses, ABNs, and more), including automated data-quality reporting and error logging.
- Completed 486 hours of hands-on automation training, applying n8n, Make.com, and Zapier to additional projects, including a form-to-sheet integration and an API-based Facebook/Instagram posting workflow built through Meta's developer platform.

Social Media Manager (Crypto Campaigns) | Remote

May 2025 - December 2025

- Created and published visual content for multiple crypto marketing campaigns, managing day-to-day social execution for a foreign client, resulting in a 28% increase in impressions (to 1.4K) and a 194% engagement rate within a 7-day campaign window.
- Researched and executed airdrop participation strategies across campaign platforms, contributing to approximately \$10,000-\$15,000 USD in rewards secured for the client.
- Managed daily posting, community replies, and audience engagement across social channels, driving consistent follower growth and sustained interaction throughout multiple campaign cycles.
- Analyzed platform analytics to optimize posting frequency and content format, improving content visibility and audience response rates.

Customer Sales Representative (CSR) | Private Company (Remote)

June 2025 - September 2025

- Responded to inbound customer chats and direct messages within minutes, resolving inquiries and guiding customers through purchase decisions.
- Managed a high-volume inbound sales queue, converting the majority of chat interactions into completed sales through prompt, personalized communication.
- Built ongoing rapport with a base of repeat customers, maintaining regular engagement that supported consistent retention and repeat business.

EDUCATION

Bachelor of Science in Information Technology

Pangasinan State University - Alaminos City Campus, Philippines | 2022 - 2026

Diligence in Studies Award (GWA 1.75)
